**Allegro moderato** ( $\text{♩} = 108 - 126$ )  
*la melodia ben portando*

### Vorbemerkung

Fast alle Ausgaben haben dieselbe Metronomisierung:  $\text{♩} = 160$ . Kullak schreibt vor  $\text{♩} = 120$ ; das ist aber zu langsam. Die obige Bearbeitung ist variationenartig.

Das rechte Pedal und der Fingersatz müssen sorgfältig studiert werden; das polyphone Spiel dieser Studie soll so ausdrucksstark und klar als möglich sein.

Nachstehende Hülfsübungen fördern Genauigkeit und Sicherheit beim Springen:

### Preface

*Almost all editions have one and the same metronome mark:  $\text{♩} = 160$ . Kullak indicates  $\text{♩} = 120$ , which is too slow. This version of the study is more in the form of variations.*

*The right pedal and the fingering must be studied carefully. Expressiveness and clearness in polyphonic playing are indispensable to a proper rendering of this composition.*

*A few helpful forms for the development of greater precision and confidence in playing skips:*

### Remarque

*A peu près toutes les éditions indiquent: M. M.  $\text{♩} = 160$ . (Kullak  $\text{♩} = 120$ : c'est trop lent!) Étudiez soigneusement la pédale et le doigté, car le jeu polyphonique demande beaucoup d'expression et de clarté.*

*Les exercices indiqués ci-dessous aideront à acquérir une grande précision et sûreté du mécanisme.*

Das rechte Pedal wird auf jeden Grundton genommen, falls nichts anderes angegeben ist.

*Except when otherwise indicated, the right pedal should be used with every fundamental note.*

*Si ce n'est pas autrement indiqué, vous prendrez la pédale à chaque note fondamentale.*

*sempre ben marcato ed espressivo*
